

FUEL OIL PUMP SET

The NECO Fuel Oil Pump Set (FOP) provides both manual “on” or “off” operation as well as automatic operation in response to an operation call from boiler, hot water heater or other device requiring fuel oil.

FEATURES

- Factory Engineered & Fabricated
- Single Connections for Suction & Discharge
- Standard units accommodate flows from 16gph to 600gph at pressures of 10, 50, 100 psi
- Automatic start on call for operation
- Single Point of Power
- Drip pan with alarm
- Lead pump selection
- Optional tank level controls

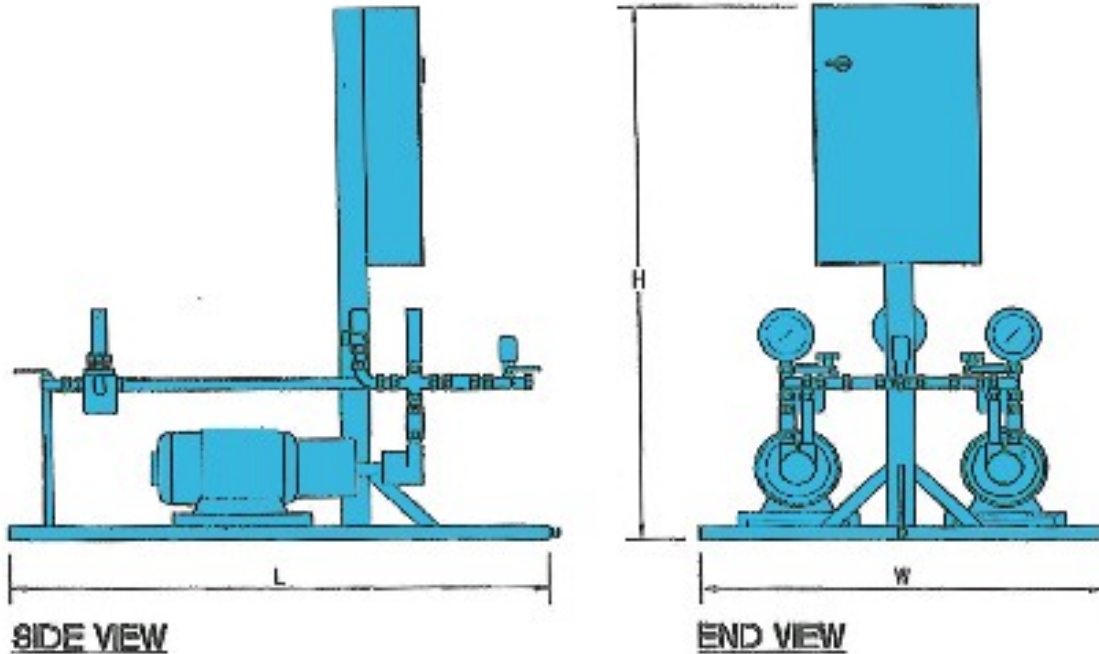

STANDARD EQUIPMENT

- Two pump & motor assemblies
- Duplex inlet strainers
- Discharge pressure gauge
- Base assembly
- Two “Hand-Off-Auto” switches
- “Lead Pump” switch
- Two magnetic motor starters with overload protection
- Drip pan alarm
- Two relief valves, two check valves and four ball valves
- Inlet compound gauge
- Three gauge isolation valves
- Control cabinet
- Two “Pump On” indicators
- “Power On” indicator
- Two motor circuit breakers
- Flow switch

Neco's other packaged & customized systems include:

- Water Pressure Booster
- Sewage Lift Stations
- Boiler Feed Systems
- Elevator Sump Pumps with oil sensors
- Packaged Chilled Water and Hot Water Circulating Systems
- Condensate Return Units
- Geothermal Circulating Systems
- Rain Water Harvesting Systems
- Heat Transfer Systems
- Fuel Oil Pump Sets

**Specify FOP Order as follows:
 FOP – GPH – Pressure – D(ultiplex) – Volts – Phase – Hp - Options**

Fuel Oil Pump Set Pricing

To obtain a quote please provide the following:

Flow Rate required in Gallons per Hour (GPH)

Pressure Required (10, 50 or 100) PSI

Voltage 115-230/60/1 or 208-460/60/3

Contact us today to discuss your design requirements.
